NUMBER 85.

## THURMAN'S SPEECH.

FOR HONEST JURIES AND ELECTIONS.

Laws Ostensibly for the Protection of the Colored Man Used to Corrupt the North—
Why They Should be Houted Gut
—The Constitutional Side
Prosented, Washington, May 15. The Senate resumed the considera tion of the legislative, executive and judicial apprepriation bill. Mr. Beck xplained the provisions of the bill as it ad been amended, stating that the inrease by the Senate was \$94,500, naking the entire sum \$18,511,000.

Mr. Thurman proceeded to discuss provisions have been cited as warrantthe appropriation bill. No one claims, no said, that the proposed approprialons are either insufficient or extravagant. No serious objection has been

subject of calm, dellberate Senatorial Government to preserve its existence. debate, but of the most inflammatory and unjustifiable attempt to array one portion of the people against the other The old elephant looked up kind of sogeoner from ansapprenension on my surprised, as funch as to say:

[But Ind I known, as I now do, that I had a witness in attendance, who was and then the tiger growled and spit well acquainted with all the circumstant and the didn't like it very well, either, ought not on their merits to pass, why terfere in any manner with the election. No doubt the dealer had heard every country as permanent and enduring as power to regulate elections, for it is over if you had any good eight cent tion laws sought by this bill to be re-ed. They originated in the city of New "No, sir-no, sir!" was the ple say we ought to have fair juries and disan political club. In 1876 there were

H. S. BENNER

not say whether the law had been needed at the time of its enactment, though it would have been better to suffer the evils resulting from allowing an occasional aider of rebellion to sit on juries than to puss such a law. But the moment peace was restored it was due to the national character, to justice and civilization, that the law should have consed to exist. He proposed it should now disappear. It was necessary, Mr. Thurman said, to provide against juries of one political party where there are not to be political questions. Was it desired to indict men for political of fenses and place them on trial before partisan judges and julies? There was such a thing as packing jutles,

SUPERLYISORS AND MARSHALS.

Mr. Thurman then passed to the con-Mr. Thurman then passed to the con-ideration of the clauses relating to su-

pervisors and deputy marshals. The proposal to repeal these laws, he said, was said by their opponents to be an atempt against pure elections and ensavor by the Contederate brigadiers to shield themselves in their enormities by which they suppress the vote of the truly loyal citizens of African descent. The fact is the laws were never made to notect citizens of African descent and vere most unmitigated instrumentals ties of corruption, force and fraud. Even if constitutional they should be repealed, but he denied their constitulonality, Where is the constitutional warrant

for the enactment of these laws? Two

on motion of Mr. McNeill.

The House reduced the sum for the continuance of the Geological Survey from \$100,000 to \$50,000.

The appropriation for the Board of Charitles was also reduced. "Reduction" proved to be the order of the day. The riot bill investigation has developed nothing startling during the week. A few testified to offers of money for votes, but members generally knew nothing personally of attempts to cerrupt, those from your county among the latter.

MARIERTON LETTE.

Republican Filibusiering—The New Electoral Bill. Marks Threatens.

WASHINGTON, May 24.

Scarcely any two opinions agree, even as 50 who the senate of the legislanter with the was at the way and as to when the trees are to which he was not admitted.

The senate committee on the judi-flighten to the judi-clary has decided to report against the clark and inclaration of D. T. Corbin for chief in monination of D. T. Corbin for the substitute of the supreme Court of Utah.

A SHOC

favor by electing Corbin to a soat in the senate to which he was not admitted. News says: We happened to be present it was not a bribe. It was only a loan on Friday last when Major Nightwine very warm weather of the past few was held together long enough to elect near the slab dam. Upon opening it he days made it mighty uncomfortable Corbin. But notwithstanding this explanation the judiciary committee of egg sack, and although he is an ex-A MEMENTO OF GETTYSBURG. - The

filibustering tactics of the minority. battle of Gettysburg, Albert Jackson, The Republicans have settled down to at present a resident of Eureka and the obstruction policy entirely. Even working at the Consolidated furnaces, Mr. Townsend's bill to provent the 10- was shot in the right lung, the ball moval of cases from State to Federal ranging to the left and passing close to courts has been made a point of attack, the heart. The wound was probed, but and two days have been consumed in the bullet was not extracted. Mr. dilatory motions, and breaking the quo-

tich in manute of the proper description; it should be well decayed, and not of a drying nature. A partially shaded place tends to its more rapid growth than where entirely exposed to tial, and in dry weather soap suds is one of the best materials for the putpose. We have used liquid manuro with decidedly good results. When ed out and the tops cut off, thus securing "stocky" plants. When thinning out, the plants that are taken out should be touned and first her to take the plants that are taken out should be topped and firmly replanted in a wellprepared bed. In transplanting always give the plants as they stand in the seed bed a good soaking, and also the soil to which they are to be removed, an honr or so before removal. When the plants are six inches high, and after the hot weather of July, the work of setting in the trenches begins. The depth of the being greatly superior in point of ten

occupied is no consideration planting in dozen upple tress that were hearing single tows three or four feet apart, with heavy crops of apples every other year. the plants six inches apart, is recommended, but in garden culture, where ground must be economized, we find a long pole—the trees were large—and gave them a heavy location of the Arrest Internal and External Boulog, to Relieve and Solidar Information, Order Arrest Information Chief Arrest Information External Belling, According Bleeding, According to the plants six inches apart, is recommended, but in garden culture, where manded, but in garden culture, where ground must be economized, we find three it four rows can be grown in a french with very little more labor than one. Six inches apart each way gives the plants ample room for growth and does not interfere when the time comes for "handling" or filling. In thy weather water around, not on the stakes. For five or six weeks after planting mothing needs be done but keep the weeds down and the Celery moist, that they weeks down and the Celery moist, that sindneing as rapid growth as possible. Late in August the filling up process is commenced. The earth is drawn up close around the base of the plant, drawing the stems togother, taking care not to get the soil between the inner stakes, for to cover the heart. Some cultivation of the stakes are in up at intervals, while others are growth and carth up all at once, We prefer the former and at the close of the season, before there is danger of leavy frosts, draw the ground up clean to the top. in this section is the Cition, the Jenny Lind, the White Japan and the Casaba. The Nutmeg is too late for us. There is no reason why all our fatmers hould not have a patch of canteloupes for family use. A plot of ground forty by forty feet would be enough for a to spare in the garden, select a suitable one on the farm and. They can mise far emperior feult to any found in far superior fruit to any found in the markets. - Germantown Telegraph,

EARLY CULTIVATION, - As soon as a planted crop that requires cultivation appears above the ground it should be roads has led to this result, and it should crop. Early cultivation greatly hastens the progress of vegetation, keeping the - Many new hand-boards have been soil warm, moist, and mellow, and is, put up during the past year, but are therefore, very advisable. But the there yet enough? There should be no great danger is from weeds. "Ill weeds want of so cheap a convenience any grow apace," and soon smother the young crop. What could be destroyed

— How beautiful the farms and the eradicated with difficulty. In the hold of the soil, and is soon afterward gardens since the close of the dry spett!

The peach trees should not be allowed to overbear. Thin the fruit in and strated it. The time for cleaning cultivated crops should not be put off. Apple trees have not blossomed very The early season has pushed torward the weeds will get ahead of the latter.

The potato bug is here, but not in What would to-day require but an great force as yet. Slay him at once, hour's easy work, may next week need Let this year's war be so thorough several days hard labor. This is most noticeable of the garden, but is equally - Butter cows are the latest. A man true of the field. One light stroke of - Butter cows are the latest. A man living in Green township, Obio, has a cow whose milk needs no chunning, row from the newly-sprouted words which could only be heed out with different countries. milk and all it requires is "working in." floulty after two or three days' neglect.

A Michigan lady writes to Mr. So a stroke from a properly-fitted har-Vick, the florist, that to kill insects row or cultivator may clean the corn or she uses one tablespoonful of kerosene potato rows in the field, which will cult to a gallon of water, and sprinkles on in a few days' time for much hand lathe plants with a hand-broom. It de-stroys green files, currant worms and rich; and it does this in no way more present forward senson and the moist

tinent and timely. -Bunt corn is prescribed for hog This is a very important theme; they e hogs free access to it.

Mr. John M. Heiges's "cultivated" and cucumber bugs like radish leaves better than other kind. I sow a few radish to the acre. He has a new variety, the and, in fact, all soft bodied worms, are "Mold," brought out at the Paris Expo- easily driven out by salt sown broadsition, and secured at one dollar a pound.

Sition and secured at one dollar a pound. - The Kentucky crops are suffering ample. Dry sacked lime is also effectual. For cabbage worms apply dry salt if the plants are wet, or a strong brine

if they are dry. Turnip-flies are destroyed by tine slacked lime dusted over the field. But the whole tribe of depredators are wonderfully kept down by making friends with the birds. They are the natural enemies of all insects, worms, grabs, atc. In fighting vermin we must not try to oppose nature, but the sun. Moistore is the great essen-

Expeniment, -- An old tarkey raiser gives the following experiment: Four the plants have reached a growth of toes and oats. Four others of the same broad were also, at the same time, confined in another pon, and fed daily on the same article, but with one plat of very finely pulverized charcoal mixed with their food-mixed meal and boiled potatoes. They had also a plentiful supply of charcoal in their pon. The sight were killed on the same day, and there was a difference of one and a half pounds each in favor of the fewly which had been supplied with charcoal, they being much the fattest, and the ment derness and flavor,
